Epiplex 500 benefits

- o Knowledge maturity of the organization as a whole improves
- o Vulnerability to attrition drops down
- o Training cost reduced dramatically
- o Business managers freed up
- o Trainers better utilized

“flexible solutions complying with SCORM and AICC standards”

“reduce training cost between 40-60 %”

Extract

Extract process knowledge and skills into simulations and documents

Capture on a range of systems from small window based applications to complex ERPs and mainframe systems

With Auto-generation, eliminate dependence on technical content development skills

Deploy

Deploy self paced **Audio Visual** modules not only on standalone desktops but also on company intranet

Email Standard Operating Procedures (**SOP**) and handout to end users at Points of Performance

Feed content into organizations Learning Management Systems (**LMS**) at regular intervals and broaden the base of knowledge pyramid

Improve

Replicate best practitioner skills across the organisation

Use exact description of the process

Stimulate learners with **Audio Visual** simulations and cut down learning curve and training time

Improve comprehension and retention of process nuances, ensure repeatable performance

Setup a solid foundation for Business Process Re-engineering (**BPR**)

Support large distributed groups with small training team

Train internal customers such as operators, associates and managers

Train external customers such as channel partners at fractional cost
